

# MAHROUG FADOUA

**Address:** Grarem Gouga , Mila, Algeria  
**Phone:** +213 779 296 219  
**Email:** fadoua.mahroug@univ-constantine2.dz  
**Links:** [Github](#) , [Linkedin](#)  
**DOB:** 22/03/2003

## SUMMARY

Artificial Intelligence and Data Science graduate with experience in AI, machine learning, NLP, computer vision, and web/mobile development. Passionate about building intelligent solutions for real-world challenges.

## PROFESSIONAL EXPERIENCE

- Participant — Agri Challenge Hackathon, ENSIA, Algiers** Jun 2025
- Participated in a 4-day AI hackathon focused on smart agriculture.
  - Built a deep learning model for plant species classification using field-collected data.
- Code4Palestine Competition, Ai Nexus Club** Jun 2025
- Won an AI competition by developing SAWTNA, an AI assistant to help bypass digital censorship.
  - Designed an AI solution to support Palestinian content creators and activists online.
- Marketing Manager, Mozilla Campus Club, Constantine** Jul 2024 - Sep 2025
- Managed club communications, digital content creation, and outreach campaigns
  - Produced promotional material using video editing tools
- Scratch Programming Instructor, Boubliaa School, Mila** Aug 2024 - Sep 2024
- Delivered beginner coding workshops for children focused on logic, creativity, and problem-solving
  - Guided students in building interactive games, fostering excitement for technology

## EDUCATION

- Master's degree,Data science and artificial intelligence** 2025 - Present
- Université Constantine 2 – Abdelhamid Mehri | Constantine, Algeria
- Bachelor's Degree , computer science** 2021 - 2024
- Université Constantine 2 – Abdelhamid Mehri | Constantine, Algeria

## PROJECTS

- Wireless IoT-Based Weather Monitoring System** 2023 - 2024
- Bachelor's Thesis — Université Constantine 2
- Designed and implemented a real-time IoT weather monitoring system using ESP8266 and environmental sensors
  - Developed a Flutter application integrated with Firebase for live weather data visualization.
- Mouth Recognition System** 2024 - 2025
- Computer Vision — Coursework, Université Constantine 2
- Developed a CNN-based mouth recognition system using Python and TensorFlow/Keras.
  - Performed image preprocessing, data augmentation, and model evaluation.
- Insects Detection in Plants** 2024 - 2025
- Machine Learning — Coursework, Université Constantine 2
- Developed a CNN-based mouth recognition system using Python and TensorFlow/Keras.
  - Performed image preprocessing, data augmentation, and model evaluation.
- Captain Trend : Sport Trends in Arabic** Mar2025 - May 2025
- NLP — Coursework, Université Constantine 2
- Developed a real-time NLP platform for Arabic sports trend analysis using BERTopic and MarBERT.
  - Performed sentiment and emotion analysis on social media data with interactive Streamlit visualization.

## ADDITIONAL INFORMATION

- Technical Skills: Python, TensorFlow/Keras, Flutter, Dart, PostgreSQL, Next.js
- Languages: Arabic (Native) • English (Intermediate) • French (Intermediate)
- Certifications: CCNAv7 – Cisco Networking Academy (Dec 2023)
- Activities: 2nd PNR Scientific Days (2025) – 2nd CGEL Medical Conference (2025)
